

DANGER ZONE

Get Your Hands on Real Combat Action!!!

The Most Innovative Cabinet Design in Years!

Unique twin handles swivel the monitor left or right, tilt it up or down—activating realistic scrolling action on the screen. Cabinet styling takes a radical departure—gleaming stainless steel makes it stand out with a high-tech look.

Aggressors swarm in over the mountains. Their mission: Take out your base.

Rapid fire ack-ack tracers nibble the sky as you weave a defense net.

Copter gun ship: Fighters and bombers flame from the sky—victims of your lethal heat seeking missiles.

Incoming ICBM's. There's no place to hide.

The border's been jittery for weeks. Wild rumors of invasion run rampant. Your desert defense post has been on full alert for days and still the tensions mount...

Sudden Warning! The radar screen is crawling with invader blips. You can't believe your eyes as swarms of enemy attack copters, fighters and bombers come swooping in low over the mountains. This is it!

Quickly you grab the handgrips of your rapid fire anti-aircraft gun and rake the skies with hot lead at sixty rounds per second. Copters and fighters tumble from the clouds, fiery balls of wreckage. Swivel left, swivel right. Tilt up, tilt down, your defense monitor follows the action as you unleash deadly heat-seeking missiles against the high flying bombers that have already unloaded their deadly cargos with whistling screams the payloads rain in, taking out vital sections of your base with explosive thuds. The damage control lights flash. Condition Yellow! Condition Red and they send in the ICBM's. There's no place to hide—you've got to fight on and win!

DANGER ZONE—the hot new action game that could only come from the game masters at CINEMATRONICS! Once players grab hold of the combat control handles on this revolutionary new cabinet, they'll find themselves pulled into the game like never before. Swing the monitor left or right, tilt it up or down, the scene scrolls in the same manner—creating an incredible new level of realism never before achieved.

Gleaming stainless steel and radically new cabinet styling make certain that **DANGER ZONE** stands out in any crowd. The action of the screen and on the screen make certain of plenty of return play and high ROI.

DANGER ZONE from CINEMATRONICS. It's got the moves to make your profit levels soar.
